

ALPHABET BOOK

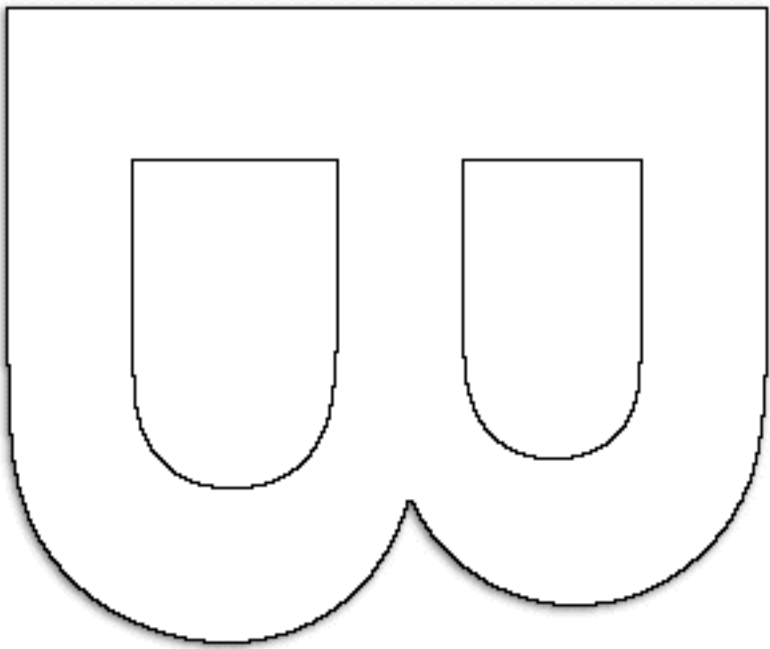

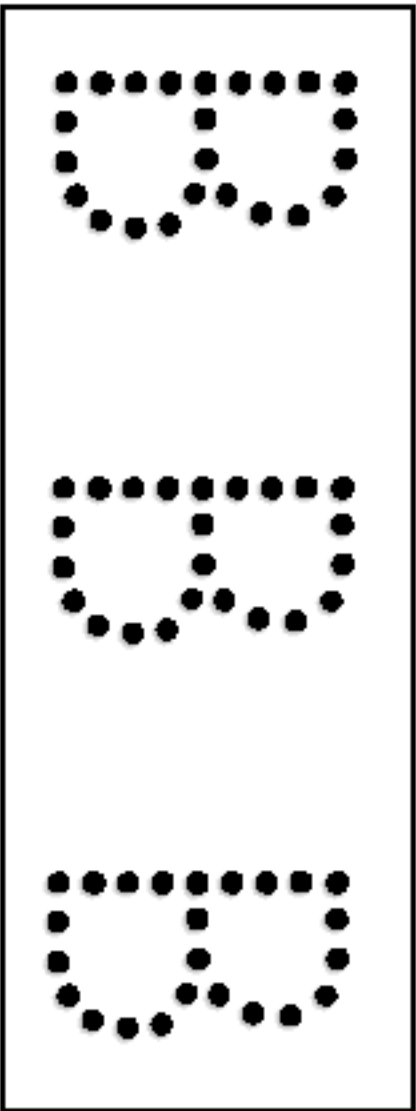

Instructions: Print Alphabet Book (for a more durable book use cardstock paper). Have children trace the tracing letters in the rectangle on each page. Children can draw or cut out items from magazines that begin with the letter on each page in the blank area in the right side of the page.

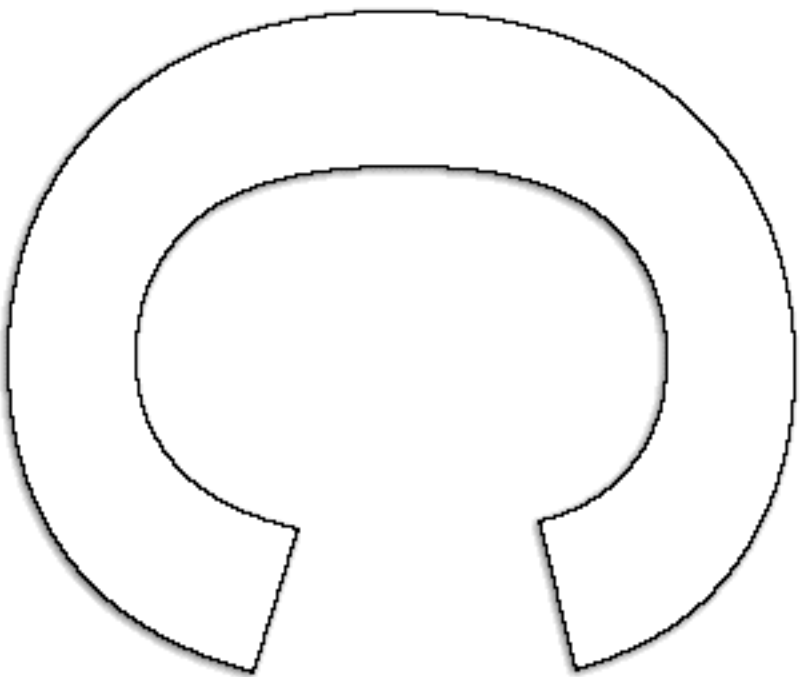

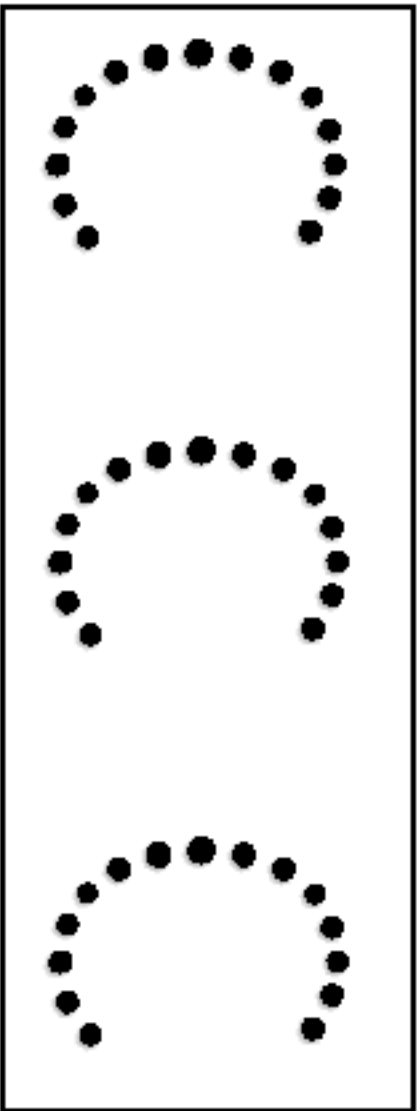

Glue cover sheet and end page on construction paper.

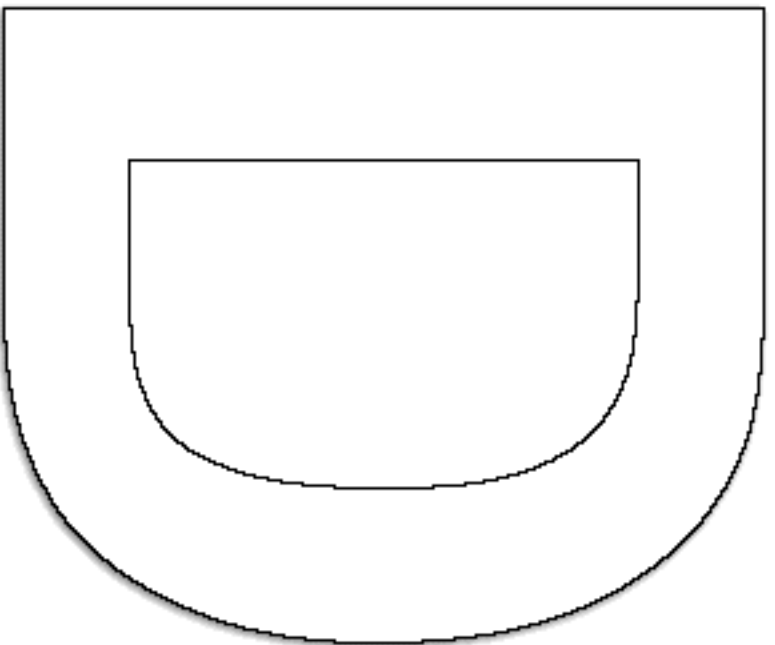

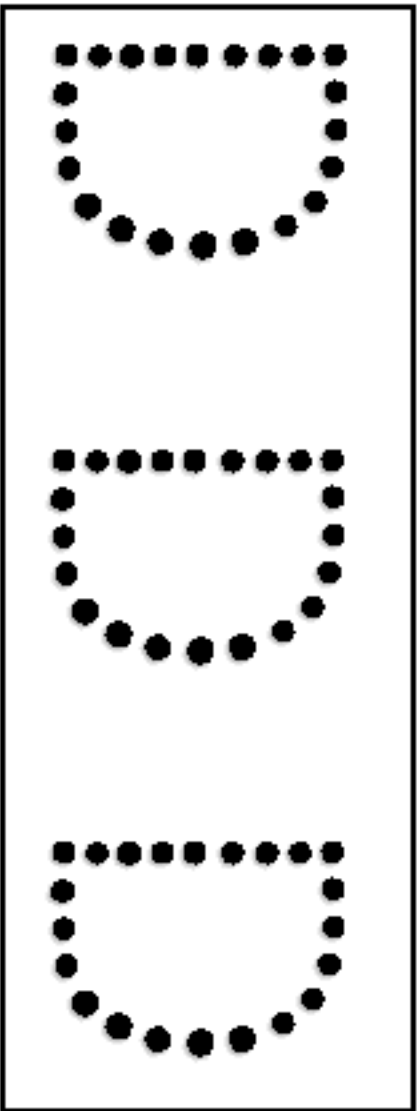

You can also draw or glue the items on and then laminate the page. Use wipe on wipe off markers to trace the letters.

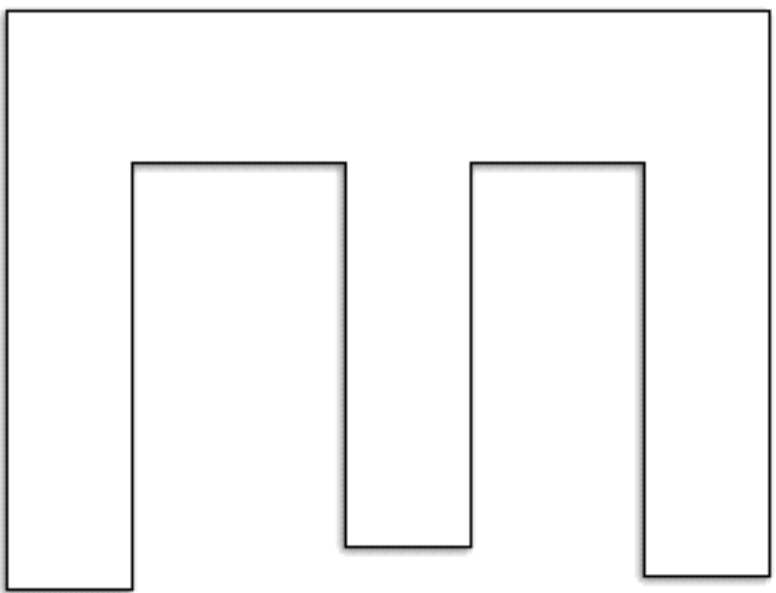

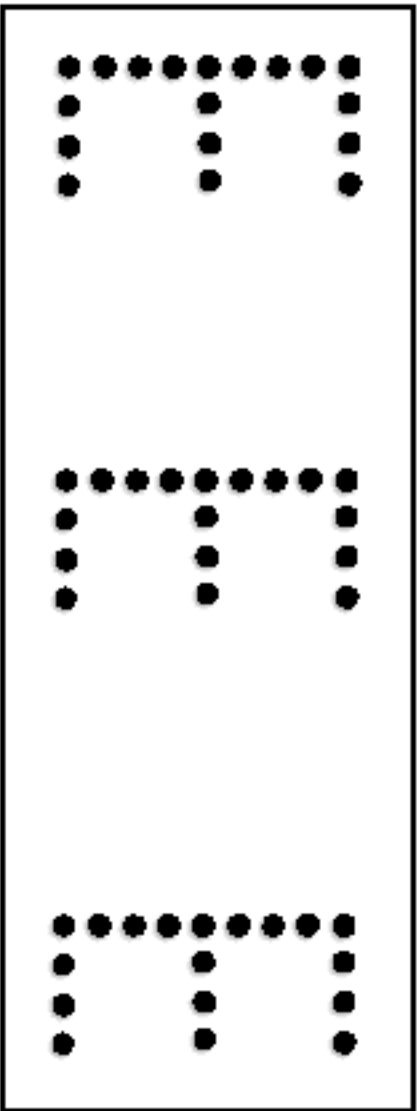

Book can be bound together at the top either using book rings or having it bound at an office supply store (about 1.50 per book) if you do not have a binding machine available.
