

Car Letter Sequence

Print on cardstock paper ... cut out and laminate. Children put the cars in alphabetical order. If you make two copies of each car you can then have the children place the same car on top of the matching car for a matching game. You can do an upper to upper ... upper to lower ... lower to lower match.

You can put the cars in order on the floor ... on a large table ... on a classroom closeline ... on a wall etc.
