

Fall Counting Circles

www.childcareland.com

Instructions: Print on cardstock ... cut out and laminate. Children can match the correct number circles. You can also glue two matching together so that a number is one side and the matching number items are on the other and then laminate.

For a center activity you can lay the circles out on a table and have children count and write down how many items are in each circle. There are many things you can do with the counting circles... use your imagination and enjoy!!
