Ghost Number Match

(shown with letter example)

Instructions: Print on cardstock paper. You can either leave the ghosts on the mat or cut them out and glue them on a black or purple color of cardstock paper. Laminate mat. Cut number circles out and laminate. I attach self-adhesive magnets on the back of the number circles so children can to the activity on a metal tray. Children put a number on the blank circle of the ghost on the left side and find the matching number and put it on the blank circle of the ghost on the right. Play continues until all numbers have been matched.
