

Penguin and Ice Pond Color Table/Floor Game

Instructions: Print on cardstock ... cut out and laminate. Lay ice ponds on the floor or table and have children put the penguin with the same matching color on top of the matching ice pond. These are also great for circle time (for example glue a craft stick to the back of the penguin and holding it up have the children call out what color it is .. or you can attach a piece of velcro to the back and use them on a felt board.) Use your imagination and have fun.
