

Snowman Number Circles

Instructions: Print on cardstock ... cut out and laminate. These circles can be used for matching games or sequencing activities (put them in order). You can also put the circles in a bag and have each child take one out. The child would then say what is on the snowman. You can play a find the snowman game by hiding the circles around the room and have the children find them. You can make stick puppets by attaching a craft stick to the back of the circles. You can also attach a magnet or velcro to the back of the circle and use them with a felt board or magnetic board.
