Watermelon Two Letter Sight Word Board Game

childcareland.com

Instructions: Print gameboards on cardstock paper and glue inside a file folder. Print two sets of the watermelon sight word cards. You will only use one of the "is" sight word cards. Cut out and laminate ... cut out and laminate game tokens. Shuffle game cards and place face down in the "draw" pile. The child who goes first takes a card and reads the sight word and moves his/her game token to that sight word. The child who is the first to reach the "is" sight word on the gameboard wins.
