Apple Letter Cover

Instructions: Print out letter mats on cardstock paper and laminate. Print letter apples on cardstock paper ... cut out and laminate. Children pick an apple letter and cover the same letter on the letter mat. I have included cover up cards that can be used but you can use playdough or buttons as well. Black and white versions are also included.

I made letter dab and letter color sheets that you can print on regular paper. Children pick an apple letter and either dab the matching letter with a paint dabber or color with crayons or markers.
