

# Autumn Puzzles

Instructions: Print on cardstock paper and cut across the lines where indicated. Laminate for durability. This set includes 24 puzzles that come in black and white as well as part and full color.

I have also made puzzle guides that the children can use to help put the puzzles in the correct order.

We choose five puzzles to set out at a time and mix the puzzle pieces up. The children then assemble the puzzles. You can do more or less puzzles if you wish.
